

Sample of Feeding Accessories:  
Flexible bands

Sample of Feeding Accessories:  
Feeding Wheels

Buttons and Switches:  
Safety, On/Off Motor,  
Speed regulation,  
On/Off Vacuum,  
Vacuum Regulation

Movable Frontal Panels:  
For Industrial or Normal  
PC Towers,  
Electrical Cabinet,  
Free Storage Space

No Vibration Motorized Cylinder

Total Width Adjustable Vacuum Power

Connected to SFF Suction Feeder

## VB VACUUM BELT CONVEYORS

The VB models are independent belt conveyor modules for the transport of sheets, labels, tickets, envelopes, leaflets, reviews, open boxes, adhesive labels sheets and so on.

They have an industrial motorized cylinder, high resistant and high friction rubber belt, adjustable speed. High resistant aluminium structure for multiple inkjet heads, PCs, encoders and camera systems easy mounting.

## APPLICATIONS

Transport of multiple tickets and labels sheets for inkjet numbering and barcoding.

Transport of single tickets, labels, cards, envelopes for inkjet numbering and barcoding

Transport of envelopes, leaflets and reviews for inkjet complete mailing personalisation

Transport of multiple tax stamps sheets for inkjet numbering and barcoding

## BENEFITS & FEATURES

Highly modular design - Easy operating and no maintenance - Robust system parts and design - Free Internal Storage Space (access by movable frontal panels) - Adjustable height for in-line connection to existing machines such as feeders, folding, digital and offset printing and so on.

## TECHNICAL SPECIFICATIONS

Belt Dimensions: Standard 510x1100/1750 Special 510x2100mm (WxL) – Other sizes are available  
Speed: Max 60m/min (Special 100m/min), adjustable, no vibration motorised cylinder. Special speed available under request.  
High Friction Rubber Belt – Vacuum/Suction: Yes. All conveyor area (suction belt area personalization available)
